# XUE RANGE UNIVERSAL OVENS ESSENTIAL

# **XUE** UNIVERSAL OVENS ESSENTIAL

Our universal ovens XU are suitable for all applications for drying, heating, heat preservation, sterilization with hot air, component aging, curing, thermal tests... in laboratories and industries.

### A robust construction and quality.

External sheets made of steel. White and blue epoxy paints. Inner casing made of stainless steel, corrosion resistant. Rounded corners for easy cleaning!

Thick insulation: low energy consumption, excellent thermal stability, low surface temperatures.

Simplified calibration by  $\emptyset$  20mm entry port on the left side. Automatically interior light point turns on when the door is opened.

**Adjustable** 

air exchange.

Setting the opening of

the air outlet intensity.

### An accurate temperature control.

C3030 PID electronic controller. Easy to use. Precision: 0.1°C. Measurement by PT100 or thermocouple sensor. 1 program with 8 steps max (4 programmable heating-up ramps and 4 temperature maintenance levels with timer).

Display of the setpoint and measured temperature, and the heating power used. Monitoring of your current program. Pause or stop the program. Delayed start, repeat loop. Fan speed control. PID adjustment. Temperature correction at 2 distinct temperatures (offsets). Automatic fault diagnosis. Display of faults. RS485 modbus multipoints communication to control several ovens on the same network.

# Protections for your ovens and your products. Automatic heating and ventilation turn off when the door is opened (can be

Automatic heating and ventilation turn off when the door is opened (can be deactivated). Electronic overheating protection thermostat with 2 modes according to DIN 12 880: automatic reset (protection class 3.1) or manual reset (protection class 2.0). Temperature tracking alarm. Visual and audible alarms.

# FRANCE XUEII2

### **Loading shelves**

2 shelves provided with anti-tilting guide bars. Multiple levels of loading.

### Tightness of the door.

Long-lasting removable stabilized silicone seal.
Closing of the door in two points.

### Ventilated ovens for even more performance!

Fans help accelerate the process of drying and homogenizing the heat. A speed controller on the control panel allows you to adjust fan speed.

XUE032 XUE058 XUE112 XUE225 XUE343

### **OPTIONS** -

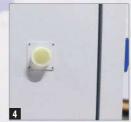

Door with viewing window

Digital weekly program timer

Temperature profiler and recorder

Entry port Ø 60 mm

Air outlet extractor

Air cooling extractor

Key-lock door

Calibration / Homogeneity control

### **ACCESSORIES**

Shelf with guide bars

Recovery tray

Subframe with feet

**Subframe with castors** 

Stacking kit

Data logger with 2 channels

Software

Portable paperless graphic recorder Thermocouple J probe 4 or 6 channels

1 Door with viewing window

Allows you to see and control the interior of the oven. This option influences the surface temperature at the window, the power consumption and the uniformity of the interior temperature.

### 2 Digital weekly program timer

Set times of operation of the oven for each day of the week. Ventilation is stopped only when the oven temperature has fallen to 80°C to prevent damage to the fans.

### 3 Temperature profiler and recorder

30 programs with 25 steps each. Record the temperature measured. Large color graphical display. Real-time monitoring of temperatures. 3 extra channels for temperature probes. With USB and RJ45 plugs.

### 4 Entry port Ø 60 mm

Centered on the left side. Allows the passage of cables or sensors.

### 5 Air outlet extractor

Evacuates the exhaust air into a duct system.

### 6 Air cooling extractor

Enables cooling the temperature in the working volume at the end of the cycle.

### **7 Key-lock door.** Only for XUE032 to XUE112.

### 8 Factory calibration certificate

1 temperature (105°C, 150°C or 200°C). Measurement in the center of the working chamber (according to FD X 15-140).

### 9 Homogeneity control certificate

1 temperature (105°C, 150°C or 200°C). Measurement at 9 points in the working chamber.

### Shelf with guide bars

Max. distributed loading: 30 kg.

2 Or reinforced shelf: max. distributed loading 60 kg.

### 3 Recovery tray

Stainless steel, height: 20mm. Protects the floor of the oven.

### 4 Subframe with feet / with castors

5 Except XUE032, XUE686 and XUE980. Elevates the oven for a more comfortable loading. Height adjustable feet. 2 castors with brake.

### 6 Stacking kit

Only for XUE032 to XUE112. To stack 2 ovens same

### Data logger with 2 channels

Saves the temperatures measured by two mobile

### 8 Software for data logger with 2 channels Can set data logger and retrieve stored data.

### Portable paperless graphic recorder

Full color screen display. Real monitoring of temperature changes. With USB and RJ45 plugs, and 4 connectors for mobile sensors.

### 10 Version with 6 connectors for mobile sensors.

### 11 Thermocouple J probe length 3 m

Length 3 m, with plug. Accessory for recorders.
